To: AMIGOS DE HOLANDA
Father Dirk Foundation

Dear Friends from Netherlands,

You already know Fundación CIFAN and during the last 3 years you have provided substantial support to projects that improved the life quality of vulnerable children in the residence My Family CIFAN (Mi Familia CIFAN).

We are writing to you this time with sad news. Unfortunately, on Wednesday 29th of July the infrastructure that housed the Residence Mi Familia, classrooms of CIFAN Orchestra and the offices suffered a fire. The entire building is now disabled and the children of the Residence Mi Familia have lost everything: books, clothes, toys, furniture etc.

However the children are safe and with the help of the community we have now managed to cover their basic needs: clothes, food, a shelter, notebooks, etc. For the next ten months the Residence Mi Familia will be moved in another building, but we need money to rebuild the original infrastructure.

Unfortunately the building doesn't have fire insurance, because in Chile companies do not insure this type of buildings. We appreciate your commitment with the less fortunate children and teenagers in Valdivia and hope to have you close in this extreme emergency situation.

Sincerely,

Cecilia Monrroy Suazo
Executive Director
